PROFESSIONAL SUMMARY

Full Stack Developer with 3+ years of experience building and maintaining web products across React, Next.js, TypeScript, Symfony and WordPress. I have contributed to complex features end-to-end on both B2C and B2B products, working across the full stack from front-end to back-end.

Originally trained in biology, I bring a detail-oriented and analytical approach to problem-solving. I enjoy building things that are clean, functional and user-focused.

French (native) | English (professional, TOEIC 965/990) | Working Holiday Visa - full work rights

TECHNICAL SKILLS

Frontend: React, Next.js, TypeScript, JavaScript, HTML, CSS, Tailwind, SASS

Backend: Symfony, PHP, REST APIs, API Platform, MySQL

CMS: WordPress (Theme Building, ACF, Gutenberg, WooCommerce)

Tools: Git, Figma

WORK EXPERIENCE

Full Stack Developer

Mar 2024 - Aug 2025

StadiumGO - Carpooling SaaS for sport and cultural events | Paris, FR

- Built an automated, configurable reward and gamification system driving platform usage and becoming a key commercial argument for B2B partners
- Designed a dynamic analytics dashboard with filterable stats, charts and export features, now used daily to monitor platform activity and user engagement
- Redesigned the back office UI/UX, turning it into a stronger product for B2B partners
- Built interactive map features to drive user engagement across the platform

Full Stack Developer

Jun 2021 - Mar 2023

Devolie - Digital communication agency | Bordeaux, FR

- Designed and built the agency's internal maintenance app from scratch following mockups → later migrating it to a React SPA + Symfony API architecture with new features and improved UX
- Built and maintained 10+ custom WordPress websites for various clients, using Theme Building, ACF, Gutenberg and WooCommerce
- Developed a Symfony website for an annual forum event, including a reservation system and admin dashboard
- Built the agency's own showcase website (WordPress)

FREELANCE & PERSONAL PROJECTS

Lung Cancer Screening App | React

Built for a medical thesis project, helping patients and healthcare professionals find approved screening centres near them, with geolocation, an interactive Leaflet map, and a multi-step eligibility questionnaire.

Impact&Match | Symfony

Freelance project for an annual sports and environmental forum, with a custom back office for content management and ongoing feature development.
